

Martock Dental Practice

Quality Family and Implant Dentists. Since 1977.

Examination & Consultations

Dental examinations are a thorough examination of your whole mouth, including an assessment of your soft tissue and gum health. New patients registering with us may require radiographs at an additional cost.

Routine examination	£54
New patient examination	£75
Radiograph (Single film)	£15.75

Periodontal Health

Most adults have some form of gum disease, this can affect the tissues that support the teeth and hold them in place as well as your systemic health. Our Hygienists can assess, treat and monitor your periodontal health and help you maintain a high standard of oral hygiene by removing any plaque and calculus. Our Hygienist will also show oral hygiene techniques to assist you at home.

Routine hygienist visit	£88
Extensive Periodontal treatment	From £500.94
Airflow polish	Additional £15

Fillings

Once decay has been removed your Dentist will protect the tooth by placing a filling into the prepared cavity. There are different types of filling materials, and it can depend of many factors as to which material is the most suitable.

Amalgam restorations	From £101.60
Composite restorations	From £152

Extractions

We try our hardest to save a tooth however when this is not possible an extraction may be recommended. There are many options on replacing missing teeth such as, implants, bridges or denture and your Dentist can discuss the suitable options with you.

Simple extraction	From £171
Surgical extraction	From £236

Crowns and Bridges

A crown, also known as a cap, completely covers a tooth and restores its natural appearance and functionality. There are many different materials that can be used, your Dentist will advise a material that best suits you. Dental bridges are a fixed option for replacing one or more missing teeth using your adjacent natural teeth.

Crowns	From £798
Bridge (per unit)	From £791
Resin bonded bridge	From £869

Dentures

A denture is a removable appliance that can be used to replace one or more missing teeth, restore natural appearance and tooth functions.

Full acrylic	From £1006
Partial acrylic	From £704
Partial Chrome	From £956

Mouthguards

A mouthguard is a custom made appliance which fits snug over your teeth, cushioning them and protecting them from damage. They are usually worn during contact sport or during the night to prevent grinding.

Night guard	From £120
Sports guard	From £120*

*Additional £10 for more than one design

Root Canal Treatments

Root canal treatments are a complex treatment which involves the removal of the dead pulp within the tooth. The tooth is then filled using Gutta-percha to seal the nerve cavity and prevent it from becoming re-infected.

Molar	From £603
Premolar	From £473
Incisor	From £378

Martock Dental Practice

Quality Family and Implant Dentists. Since 1977.

Implants

Implants are titanium posts which are surgically placed into the jawbone to aid with the replacement of missing teeth. Implants are a fixed long term alternative to dentures & bridges. They can be used to replace single or multiple missing teeth and do not affect adjacent teeth.

The below consultation charge is deducted from your treatment plan should you wish to proceed with the treatment.

Implant consultation	£75
Implants	From £2900

Clear aligners

We use clear aligners of a high clinical standard of various makes such as Invisalign, Clear correct or 32 Co to orthodontically move misaligned teeth. These are a discrete alternative to traditional fixed wire braces.

Clear aligners	From £2800
----------------	------------
